

Hafiz Khan

Hafiz's extensive human resources development, consulting and training expertise has been built through a solid mixture of experience as an entrepreneur within the retail industry and as an external consultant to private and public sector organizations.

Hafiz's training activities focus on implementing practical, yet strategic approaches to performance management, leadership development, and organizational effectiveness. His experience includes managing programs in leadership, performance management & review, supervision, ethics, mentoring, professional & interpersonal communication, motivation and employee development. Today, Hafiz specializes in individual & team coaching, leadership development and outbound team bonding programs.
